

2019年度セントピーターズ短期留学（7月31日）

Day 6 July 31st

Today was our first day to go out and do some tourist activities.
In the morning, we got to see the famous sheep show at the Agrodome.

The girls learned about sheep and sheep dogs.

One of our lucky students even got to go on stage and milk a cow.

After leaving the Agrodome, we visited a lakefront where students enjoyed their lunches provided by their homestay families. Then, they had some time to wander around the town and do a little shopping. The students had some fun feeding the seagulls as well.

The last stop was Te Puia in Rotorua.
This place is famous for its geysers.

We enjoyed a guided tour in which we saw the big geyser and mud pools. We also got to see kiwi birds for the first time this trip. Before leaving, we got a tour of the Maori art school where we could see students making traditional Maori items.
