2022 年度 松蔭中学校 入学試験問題(英語 I 入試、GS) 英語(その 2)

【 F 】本文を読み、後の問いに答えなさい。

*のついた語句は下に注があります。

So-yun from Korea and Marie from New Zealand are exchange students. Makiko is a Shoin junior high school student, and their Japanese friend. They are in the classroom at Shoin.

So-yun: I hate walking. It takes me about fifteen minutes to come to Shoin. Also, it is so hot today. It is October now. October is not summer.

Makiko: Yes, I agree. I heard that it is because of ①global warming*, but I don't know well. I just know that the Earth is getting hotter and hotter. So-yun, Marie, do you know anything about that?

Marie: I know some. The world temperature* is increasing little by little, and carbon dioxide*, or CO₂ is one of the reasons for that.

So-yun: Yes, that's true. It surrounds the Earth and makes a layer*. That layer stops heat, and the heat cannot escape into space. Then, the Earth becomes warm.

Makiko: Wow, you guys really know global warming very well. I know one thing. In Japan, we don't use plastic bags when we go shopping.

So-yun: Korea does the same thing, too. Also, we don't use any paper cups or plastic cups in cafes. We use mugs or glass cups. Also, if customers bring their own cups, they can get a discount.

Makiko: That's a good idea. Japan should do that!! How about your country, Marie?

Marie: In New Zealand, we also bring our own bag when we go shopping. Also, the dairy product* industry is so important for my country, but they produce a lot of CO₂. We try hard to reduce it. It is one of the 17 SDGs.

Makiko: Wait a minute. What are you talking about? What are SDGs?

So-yun: They are the Sustainable Development Goals. They are the goals for everyone to save the Earth. You know, there are many kinds of problems in the world. Some people don't have enough food. Global warming is a big problem, too. SDGs show the list of goals to think about that.

Makiko: I still don't understand it. Is it like a “ have to do ” list for the Earth?

So-yun: That's right. But, you know, we are just students. Let's do small things. We can recycle plastic bottles.

carbon dioxide (CO₂) 二酸化炭素(にさんかたんそ)、layer 層(そう)、
